

## What is a STAR Station?

STAR stations are Smog Check stations that meet higher performance standards established by the Bureau of Automotive Repair. Some STAR stations are licensed to perform only tests, while others are licensed to perform both tests and repairs. The station is required to post a sign on the services it performs.

State law requires that a percentage of vehicles have their Smog Check Inspection performed at a STAR station. To find a Smog Check station near you, please visit [www.smogcheck.ca.gov](http://www.smogcheck.ca.gov) or call 800.952.5210.
